CONQUEST23

THE ANNUAL CONFERENCE FOR QUEENSLAND EDUCATION SCIENCE TECHNICIANS

ABOUT CONQUEST

As an Australian not for profit professional organisation, QEST aims to support science laboratory staff in Queensland schools, through the facilitation of networking and provision of job specific professional development.

CONQUEST is an annual two day conference held in the first week of the mid-year holidays.

The CONQUEST23 theme, "Connected to Science", is inspired by British Science Week 2023. The theme will encourage participants to explore the different ways that connections appear across science, education and the community.

The conference provides invaluable opportunities for Science Technicians to participate in practical workshops, presentations and discussions, with a focus on:

- Preparation for V9 of the Australian Curriculum;
- Exploring student investigation options in the Australian senior science curriculum;
- Inclusion of Aboriginal and Torres Strait Islander science elaborations, and sustainable practices across the science curriculum;
- Exposure to latest laboratory management practices, science curriculum inclusions and current technologies;
- Building relationships with industry professionals, to maximise resource efficiency and improve equipment expertise.

TICKETING INFORMATION

Two days:

QEST Member \$300.00*

non-member \$340.00*

One day:

QEST Member \$180.00*

non-member \$220.00*
